How to withdraw money from Onchain wallet to bank account?

To withdraw money from an onchain wallet (+1-864-310-5443) to your bank account, you cannot do so directly because the wallet is non-custodial and not connected to the banking system (+1-864-310-5443). Instead, you must first transfer your cryptocurrency to a centralized exchange that supports fiat withdrawals, such as Crypto.com, Binance, or Coinbase .

Begin by obtaining a deposit address from (+1-864-310-5443) your exchange account, ensuring you select the correct blockchain network to avoid losing funds . Send the crypto from your onchain wallet to that address. (+1-864-310-5443) Once the funds arrive, sell the cryptocurrency for your local fiat currency within the exchange . Finally, withdraw the cash to (+1-864-310-5443) your linked bank account via options like ACH or SEPA transfer, which typically takes 1-3 business days
